NAVs will be calculated on all Business days.

Risk Factors: Mutual funds, like securities investments, are subject to market risks and there is no guarantee against loss in the Schemes or that the Schemes' objectives will be achieved. As with any investment in securities, the NAV of the Units issued under the Schemes can go up or down depending on various factors and forces affecting the securities. Investments in the Scheme will be affected by trading volumes, settlement periods, volatility, price fluctuations, inability to sell securities, disinvestment of holdings of any unlisted stocks prior to target date of disinvestment, credit risk, interest rate risk and default risk including possible loss of principal. As the price / value / interest rates of the securities in which the scheme invests fluctuate, the value of your investment in the scheme may go up or down. Past performance of the Sponsor/AMC/Mutual Fund does not guarantee future performance of the scheme.

AIG India Liquid Fund, AIG India Treasury Fund and AIG Short Term Fund are the names of the Schemes and do not, in any manner, indicate the quality of the Scheme, its future prospects or returns. The sponsor is not responsible or liable for any loss resulting from the operation of the scheme beyond the initial contribution of Rs. 1 lakh made by it towards setting up the Fund. The present schemes do not give any guaranteed or assured return. In addition the schemes do not guarantee or assure any dividend and also does not guarantee or assure that they will make any dividend distribution, though they have every intention to make the same in the dividend option of the plans. All dividend distributions are subject to the investment performance of the Schemes. The Schemes and individual Plan(s) with a separate portfolio, if any, under the respective Scheme(s) shall have a minimum of 20 investors and no single investor shall account for more than 25% of the corpus of the Scheme(s)/Plan(s). In case of non-fulfillment with either of the above two conditions, specified SEBI Guidelines in this regard would be complied with. Please read the Scheme Information Document before investing.

Statutory Details: AIG Global Investment Group Mutual Fund ('the Fund') has been established as a trust under the Indian Trusts Act, 1882, sponsored by AIG Capital Corporation (liability restricted to Rs. 1 lakh). AIG Trustee Company (India) Private Limited, a company incorporated under the Companies Act, 1956, with a limited liability is the Trustee to the Fund. AIG Global Asset Management Company (India) Private Limited, a company incorporated under the Companies Act, 1956, with a limited liability is the Investment Manager to the Fund.

*As per SEBI Circular No. SEBI/IMD/CIR No. 4/ 168230/09 dated June 30, 2009, no entry load will be charged for purchase / additional purchase / switch-in accepted by the Fund with effect from August 1, 2009.

Rating Methodology: The assigned rating AA+ is valid only for AIG India Liquid Fund and AIG India Treasury Fund. The rating of CRISIL is not an opinion of the Asset Management Company's willingness or ability to make timely payments to the investor. The rating is also not an opinion on the stability of the NAV of the Fund, which could vary with market developments. CRISIL's assessment of a bond fund's credit quality is based on the creditworthiness of the fund's portfolio. CRISIL has developed a credit quality matrix to assess the aggregate credit quality of a fund's underlying portfolio; the matrix is a set of credit factors and credit scores, derived scientifically from the default and transition rates of CRISIL's long-term ratings. The credit factors reflect the expected default behaviour of the respective securities in the portfolio, and the expected deterioration in their credit quality. For each individual security, the lower the credit factor, the greater its inherent credit quality is likely to be. The credit factors are applied to the proportion of securities in each rating category, to arrive at the credit score for the portfolio. The schemes' ratings are assigned based on the credit score and the warranties executed by AIG Global Asset Management Company (India) Private Limited.

ICRA has assigned mfAAA (pronounced m f triple A) to AIG Short Term Fund. The rating indicates highest-credit-quality rating assigned by ICRA to debt funds. The rated debt fund carries the lowest credit risk, similar to that associated with long-term debt obligations rated in the highest-credit-quality category. The rating should, however, not be construed as an indication of the prospective performance of the Mutual Fund scheme or of volatility in its returns. The fund house would manage the portfolio such that it meets the criteria to qualify for the ICRA mfAAA rating. ICRA's mutual fund rating methodology is based on evaluating the inherent credit quality of the funds portfolio. As a measure of the credit quality of a debt fund's assets, ICRA uses the concept of "credit scores". These scores are based on ICRA's estimates of credit risk associated with each exposure of the portfolio taking into account its maturity. To quantify the credit risk scores, ICRA uses its database of historical default rates for various rating categories for various maturity buckets. The credit risk ratings incorporate ICRA's assessment of a debt fund's published investment objectives and policies, its management characteristics, and the creditworthiness of its investment portfolio. ICRA reviews relevant fund information on an ongoing basis to support its published rating opinions. If the portfolio credit score meets the benchmark of the assigned rating during the review, the rating is retained. In an event that the benchmark credit score is breached, ICRA gives a month's time to the debt fund manager to bring the portfolio credit score within the benchmark credit score. If the debt fund manager is able to reduce the portfolio credit score within the benchmark credit score, the rating is retained. If the portfolio still continues to breach the benchmark credit score, the rating is revised to reflect the change in credit quality.

Value Research Fund Ratings are a composite measure of historical risk-adjusted returns. In the case of liquid funds, this rating is based on the average weekly returns for the last 18-month period. These ratings do not take into account any entry or exit load. Five-stars indicate that a fund is in the top 10 per cent of its category in terms of historical risk-adjusted returns. Four stars indicate that a fund is in the next 22.5 per cent of its category, the next 35 per cent receive three stars, the next 22.5 per cent receive two stars and the bottom 10 per cent receive one star. Value Research Fund Ratings are subject to change every month. Current Fund Ratings are as on July 31, 2009. 45 open-ended Debt: Ultra Short-term Institutional funds were rated. The Rating is based on primary data provided by respective funds. Value Research does not guarantee the accuracy.
